

# Cable / Pipe float 64 - 69 mm, orange, 30 Liter, Polyethylene

SKU: PLRFI64PEORA

**Gross Price: Kč 2,824.77**

Net Price: Kč 2,334.50

## Technical Specification

| Attribute                  | Value      |
|----------------------------|------------|
| Displacement               | 30 l       |
| Dimension                  | 64 - 69 mm |
| Color                      | Orange     |
| Material                   | PE         |
| Weight                     | 6 kg       |
| Shipping time              | 7-14 days  |
| Production time of 100 pcs | 12 days    |

## Description

**Material:** Polyethylene

**Cable diameter / pipe receiving:** 64 - 69 mm

**External diameter of the float:** 350 mm

**Length:** 400 mm

**Displacement of the float:** 30 liter

**Total weight:** 6 kg

**Closing plug:** 16 mm

**Screw:** M19

**Screw quantity:** 2 pieces

The plastic float is made of polyethylene. The ideal solution for piping / cable lines floating on the water. Each plastic float is made of two symmetrical parts, which are mounted directly on the cable or pipe and connected with galvanized screws. The plastic float is adapted to the cable and the pipe so that it can not slip. The orange signal color gives the plastic float a good visibility, even from long distances. The plastic float is suitable for PE pipes, but can also be made to fit a steel pipe.
